100 cycles if power is lost.

KEY FEATURES

LIGHTNING AND SURGE SUPPRESSION
Built in state of the art lightning and surge protection.

SOLAR READY
15 & 20 watt solar panels are an option if power is not available at the application.

BATTERY BACK-UP
If power is lost the battery back-up system allows you to keep your gate operational.

RESIDENTIAL/LIGHT COMMERCIAL
This operator is perfect for a home or for a business that utilizes a smaller gate.

The Eagle-1000-DC gate operator comes equipped with a built in battery backup system which will allow the gate to operate at least 100 cycles when power is lost. It features the state of the art DC diamond control board, with its auto power save mode which puts the operator in "sleep" mode when it's not in use to provide maximum cycles during battery only operation. It comes equipped with a heavy duty 24 volt DC motor that can be powered with 120 volt or 220 volt AC power. In residential use the Eagle-1000-DC can be powered by a solar panel when power is not available. The Eagle-1000-DC is backed by our best in class 5 year warranty and is built for gates up to 27 feet or 700 pounds.
