

EAGLE-2000-DC

SLIDE GATE OPERATOR
With Built in Battery Back Up
Gate Capacity Up To 55' & 2400 lbs

 **MADE IN USA**

ADVANCED FEATURES 5 YEAR WARRANTY QUIET OPERATION

EAGLE-2000-DC

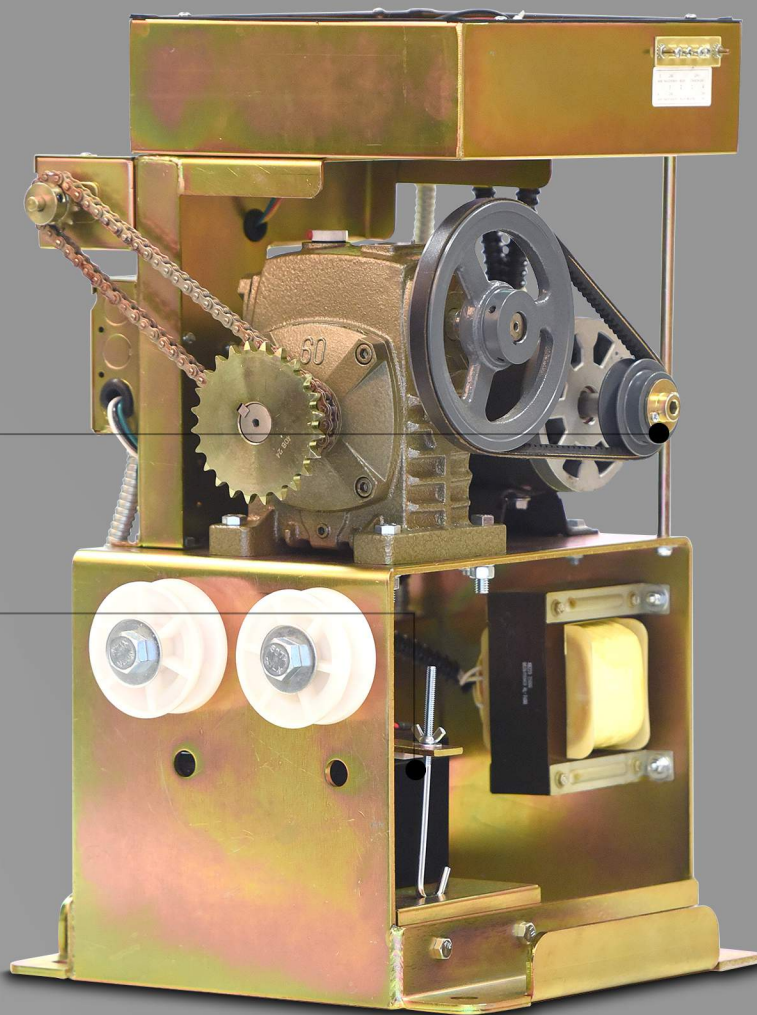

**THIS MODEL CAN BE
POWERED WITH
THE USE OF A SOLAR PANEL**

MOTOR

Available in 24V 1/2 & 3/4 horsepower models

BUILT IN BATTERY BACK UP

Allows you to operate your gate 100 cycles if power is lost.

KEY FEATURES

LIGHTNING AND SURGE SUPPRESSION
Built in state of the art lightning and surge protection.

SOLAR READY
15 & 20 watt solar panels are an option if power is not available at the application.

BATTERY BACK-UP
If power is lost the battery back-up system allows you to keep your gate operational.

COMMERCIAL/INDUSTRIAL APPLICATION
This operator is ideal for larger gates on commercial or industrial type properties.

Enjoy heavy duty power and reliability with worry-free operation, even during a complete power failure, with The Eagle 2000-DC gate operators. With 2 models to choose from (standard & HD) these solar ready operators come equipped with a built in battery backup system which will allow the gate to operate at least 100 cycles when power is lost. Both models use the state of the art DC diamond control board, with its auto power save mode, which puts the operator in "sleep" mode when it's not in use to provide maximum cycles during battery only operation. They also feature a heavy duty 24 volt DC motor that can be powered with 120 volt or 220 volt AC power. In residential use the Eagle 2000-DC can be powered by a solar panel. Backed by our best in class 5 year warranty, the Eagle-2000-DC is built for gates up to 45 feet or 1400lbs. Or for more demanding applications we offer the Eagle-2000-DC-HD which features a 3/4 horsepower heavy duty 24 volt DC motor. It is built for gates up to 55 feet or 2400 pounds.
